Mae Rupert Smith, bachgen bach 7 mis oed o ardal Penyffordd, wedi cael diagnosis yn ddiweddar o gyflwr niwrolegol hynod brin o'r enw Hemiplegia Amgen Plentynod (Alternating Hemiplegia of Childhood - AHC). Mae AHC yn rhannu nodweddion â sawl anhwylder niwrolegol arall, gan gynnwys strôc, parllys yr ymennydd, epilepsi, Alzheimer's, Parkinson's ac awtistiaeth.

Yn ddiweddar, cafodd Rupert bennod feddygol yn Tesco Broughton lle bu iddo roi'r gorau i anadlu ac fe'i cludwyd ar frys i ysbyty Alder Hey drwy hofrennydd ambiwlans.

Nid oes iachâd ar hyn o bryd ar gyfer ei gyflwr, ond mae triniaethau a therapïau posibl, yn ogystal ag ymchwil barhaus yn America ar hyn o bryd. O ganlyniad, mae ei deulu yn ceisio codi £1.5 miliwn yn daer er mwyn gallu teithio i America yn rheolaidd ar gyfer triniaeth ac ati.

Rupert Smith, a 7 month old little boy local to Penyffordd has recently been diagnosed with an ultra rare neurological condition called Alternating Hemiplegia of Childhood. AHC shares features with multiple neurological disorders, including stroke, cerebral palsy, epilepsy, Alzheimer's, Parkinson's, and autism.

Rupert recently suffered a medical episode in Tesco Broughton where he stopped breathing and was rushed to Alder Hey hospital via air ambulance.

There is no current cure for his condition, however there is possible treatment / therapy and ongoing research in America at the moment and as such, his family are desperately trying to raise 1.5 million in order to travel to America regularly for treatment etc.

Please give a donation if you can, by clicking on the just giving link above

Rhowch gyfraniad os y gallwch trwy ddefnyddio'r linc uchod.
