

WHAT IS THE ROLE OF THE PARENT GOVERNOR?

- Parent governors are elected as representatives of the interests of parents whose children are currently attending the school

- This voluntary role is a core part of the Governing Body and appeals to any parent who wants to have a positive impact on their child's and other children's education and school life
- Parent governors bring a wealth of experience and knowledge, contributing to the successful running of the school. Governors work together to develop ideas, and strategies that put those ideas into action, while also ensuring accountability and offering leaders constructive feedback on their performance
- At governing body meetings, the parent governor is encouraged to share views that represent the interests of the school's parents
- When decisions are being made, it is important that individual governors make their own mind up when contributing to the decision of the governing body

Training is provided by the local authority to ensure that the parent governor understands their role and that they are ready and confident to participate

"I enjoy doing something positive for the community that also has a positive impact on my own children's education."
